Upplysning på **www.herrgardsliv.se**  
OBS! Ring till campingen telefon **0550-102 80** för att boka.

# DOMARPRESENTATION

## MARIKA KUUSMAN

I was obviously born with a "dog mad" syndrome. My first dogs in my childhood were mixed breed stray dogs , with whom I engaged in obedience-, defence- and different trick trainings and competitions already as a little girl. I have always been attracted to dog training and have attended various courses to improve my own skills and knowledge about these furry friends.

In 1991 I managed to get my first, long awaited pure-breed dog, a female hunting type Irish Red Setter McMelissa. Since then I have always been actively engaged with setters in my life. My first litter of Irish Red Setters was born in 1994. Official kennel name, Sign Of Constancy, was confirmed in 1995.

McMelissa and her daughter Sign Of Constancy Megan were the first exterior champions among setters in Estonia and Megan was also the winner of the first official agility competition in this country.

Kennel Sign Of Constancy has been the most successful of the Irish Red Setter kennels in Estonia for many years. Its offspring has been competing at high standards in dog shows and in dog sports. But above all they have all been dear family members. Besides the Irish Red Setters, I have also owned a Brussels Griffon and Hungarian Short-haired Pointing Dog.

I am one of the founding members of the Estonian Setter Club, where I was the chairman for many years as well. A big part of my circle of good friends are people who have once bought a puppy from me or who I have learned to know through my beloved hobby.

Irish Red Setter breed is my great passion and I really enjoy presenting them at dog shows. Therefore I am very delighted for the invitation to come and judge your beautiful dogs in Sweden. It is a great pleasure and a challenge for me to step up in a new role.
